DYK? (cont. from front)

Customers have the option to read their meter and call the reading in to 1-800-642-3780. To read your meter, look at it at eye level and write down the reading exactly as it appears on each dial. If the hand is between the numbers, write down the smaller number. If the hand is between 9 and 0, the smaller number is 9. If you have a digital meter, record the digits exactly as they appear. By calling your reading in to Atlantic City Electric, we will be able to base your bill on actual energy usage.

Have a question? Please send it to the attention of the Did You Know? Column, to one of the following:

Enjoy the Great Outdoors, but Stay Safe around Electricity

With spring around the corner, you'll likely be spending more time outdoors. That means there is an increased chance of being near power lines and other dangerous electrical equipment. Here are some important safety tips for you and your family:

- Check for overhead lines before using a ladder, building a scaffold, trimming branches or doing other types of overhead work.
- When carrying long or tall items such as poles, ladders, scaffolding, tree saws and pool cleaning equipment, keep them parallel to the ground to avoid contact with overhead wires. Before you raise any equipment into the air, look up to make sure there are no power lines above you.

New Jersey (Area code 609, 856)

Apr 6: First Fridays@The Gallery Presents: Pete and J; Appel Farm Arts and Music Center, Elmer; 800-394-1211 www.appelfarm.org,

Apr 14: Oceanville Volunteer Fire Company Ham or Oyster Dinner; Route 9 & Leeds Point Road, Oceanville; 609-652-7617, www.oceanvillevfc.org

Apr 22: Barbone Street Jazz Band; American Legion Hall, Brooklawn; www.tristatejazz.org, 856-234-5147

- Assume a fallen power line is live. Stay away from it and immediately call Atlantic City Electric at 1-800-833-7476
- Never fly kites or model airplanes near a power line.
- Make sure you have at least 10 feet of clearance between the highest point of your boat and any power lines. Take this precaution when hauling, storing or sailing your boat.
- Keep clear of substations and transformers and make sure your children know not to play near them.

For additional safety tips, please visit our Web site, www.atlanticcityelectric.com. Click the "Safety & Conservation" link. And be safe!

Correction:

The number listed in the January issue for New Jersey Lifeline was incorrect. The correct number to New Jersey Lifeline is 1-800-792-9745.

Apr 27: First Fridays@The Gallery Presents: Cephas & Wiggins; Appel Farm Arts and Music Center, Elmer; 800-394-1211, www.appelfarm.org
