

As the temperature climbs, so can those summer energy bills.

Here are some ways to save energy and money this summer from Atlantic City Electric:

- Register to use My Account, a Web-based interactive feature that is free and easy to use, at atlanticcityelectric.com. My Account provides a personalized analysis of your energy use and offers ways to save on your monthly energy bill.
- Set your air conditioner's thermostat between 75-78 degrees. Every degree raised on the thermostat can save as much as three percent on your energy bill.
- Close window shades, blinds, or drapes to block the sunlight during the hottest part of the day.
- Check that all windows and doors are tightly closed to keep cool air in and hot air out.
- Wash clothes in cold water and line dry.

Learn more ways to save at atlanticcityelectric.com by clicking “Save on Summer Energy Bills” on the homepage. There you can also register to use My Account, an easy-to-use, free service to help you manage your energy costs.
